The Wood-Gas Controversy.

RATHER sharp but distant firing i A carried on by some persons interested in Wood-Gas Patents; and we perceive that the smoke of their cannon has somewhat obscured their vision. Dr. C. G. Page, as the attorney for W. P. McConnell, having presented his claims through our columns, L. R. Breisach, of this city. has presented those of Pettenkofer & Ruland, of Bavaria—he being their assignee—through the columns of the Daily Times of the 3d instant. He states that the first patent for the Bavarian invention was issued on February 24, 1851, an authen-ticated copy of which has been filed in our Patent Office; also, that the claims of his assignors were filed in the office, to protect their rights, more than a year ago. As no patent can be obtained for making or using Wood-Gas, the disputed point relates to the apparatu. which embraces the reheating of the gas—passing it over a red-hot surface in its way to the cooler—after it is generated; this is clearly estand in Derated; this is clearly stated in Dr. Page's letter on page 50. Now, as McConnell claims to have on page 30. Now, as McConnell claims to have invented the apparatus for reheating Wood-Gas, as ar back as 1849—two years previous to the granting of the Pavarian patent—and as he obtained a patent for the same, on the 26th day of September last, although contested by Pettenko fer & Ruland, we cannot well conceive who L R Breisach wants to frighten, by declaring, through the columns of the *Times*, that he will prosecute the violators of the Bayarian invention. He gives this notice to all who take an interest in the intro duction of this invention, but, in doing so, he for got to present any fact upon which the public car rely, to show what patent rights he possesses When he again writes to inform the public that he has certain patent rights, and will prosecute these who infringe them, we hope he will be so good as to state what these rights are, so that the public may know what he means.—Scientific American.

PROSPECTUS OF THE NORTH CAROLINA STATESMAN.

THE undersigned propose, on the first day of January next, at Raleigh, North Carolina, to begin the publication of the North Carolina Statesman, a semi-weekly and weekly paper, devoted to politics, news, and miscellaneous subjects, and respectfully solicit for it a share of the patronage of the democratic party, their friends, and the nublic.

Invited by many leading persons of the State rights republican party to propagate and defend principles which we have always held, and regard as the only basis of prosperity in our form of gov-ernment, and inspired with a sincere desire to serve that party and advance its interests, we propose to issue a paper at the seat of the State government. In the field of editorial enterprise, there is ample room for those who are now holding position, as well as 'or others, who choose to enter into fair competition. The propagation of the principles of our party is a duty at once important, and to us peculiarly agreeable. The attrac-tions of the editorial profession and its honorable toils, together with a desire to extend its influence, have made—a profession at once dignified and elevated, where the highest intellectual gifts may find full employment, and the purest patriotism make contribution to the public weal. We are persuaded that a journal, conducted with fairness and discretion—uninfluenced by selfishness and devoted to principle, may secure sufficient patronage, without interfering with the claims or right

f any now prosecuting the same great work Although mainly devoted to the discussion of such political questions, as they arise, which affect the welfare of North Carolina, whether relating to the welfare of North Carolina, whether relating to the federal or State governments, or such local in-terests as may be of importance, it is nevertheless intended to make the Statesman a medium of ge-neral intelligence. Accordingly, the state of the markets in the principal cities, to which our com-merce goes, shall be fully and accurately reported; nor will the attention of the conductors be less ad-dressed to the subject of internal improvements. dressed to the subject of internal improvements as a means indispensable to the development o the mineral and agricultural resources of the State These interests, of primary importance, shall al-ways command their fullest attention. To this ways command their inhest attention. To this they propose to add carefully selected and original literary matter. Being strictly conservative, they propose to avail themselves of all the lights of experience, in that progress, which promises the advancement of the interests of North Carolina. The general objects of the proposed paper bei thus clearly indicated, it may not be amiss brie

to state the particular views which are to be sus-tained by it as a political journal.

1st. Our purpose being to publish a paper purely de-mocratic, according to the straightest requirements of that party, we shall advocate strict party organi zation in its fullest and most comprehensive sense an organization which originates in the popular will, expressed by the people in their primary as semblies, and which has been so successfully in troduced among the democracy of many of the other States, by which the rank and file of the party are, in fact, those who indicate its decision and, being all brought into being all brought into action, express their will imperatively; thus, by open and fair dealing, commanding respect and obedience; an organization of the people, and not of intriguers; restoring power to those whe, by sufferance, have tolerated

its temporary usurpation.

2d. The democratic party shall always find in us advecates of their right to select their standard bearers, and to command acquiescence in decisions made by conventions fairly elected in their primary meetings. Standing upon the good eld State rights platform of '98, we shall oppose government corporations created by Congress for the purpose of internal improvement, the regulation of finance, or any other measure inconsistent with the rights

of the States.

3d. Believing that the platform adopted by the late Baltimore convention contains the democratic creed, they expect cordially to sustain the present administration, trusting that the policy add those who compose it will be regulated by the cardinal doctrines of the American democracy 4th. They will advocate all such measures of in ternal improvement as promise by judicious pros cution to promote the interests of the people and diffuse the benefits of a system already enjoyed by

of the State.

5th. The disposition of the public lands being a question of the most absorbing interest, we believe it should be at once met and settled. The unjust and unequal legislation of Congress, in re-lation to those lands, and the large and frequent appropriations made to the new States, indicate a final departure from the old and wise policy of appropriating the proceeds of their sales to the pay ment of the public debt, and the expenses of th government. It has for some time ceased to b either a subject of hope or expectation that there will ever be a return to a policy which had so much to recommend it. Believing that this system of squandering and prodigality is not only to continue but to grow worse, we shall protest against it, and assert the right of the old States to their equitable share of the lands which remain. The power "to dispose of the public lands being explicitly declared in the Constitution, the exercise of that power is a question of policy, both as to the time and the mode." Believing, as we do, that it has become the settled policy of Congress to squander the public lands, we adopt the patri-otic language of Mr. Dobbin, and say that "all of North Carolina's sons, both whigs and democrats, should protest, and demand North Caro-lina's share of the public domain."

6th. Approving of the sentiments of the inaugural of the President, we shall oppose the acquisition of Cuba or any other foreign territory, unless such acquisition be in accordance with existing treaties, and entirely consistent with the national

DR. MORSE'S INVIGORATING CORDIAL,
Phenomenon in Medicine.—Health Restored and Life Lengthened, by Dr. Morse's Invigorating Elixir or Cordial.

A T first the properties attributed to Professor Morse's Invigorating Elixir or Cordial were deemed fabulous. The public often deceived could not believe the simple and sublime truths anounced by the discoverer. But facts, undeniable facts, attested by witnesses of the highest class and character, are now triumphing over all doubts Incredulity is overthrown by a mass of testimony

which is perfectly irresistible.

The Elixir remedies in all cases the deplorable evils arising from a misuse of the various organs which make up the wonderful machine called man. It restores to full vigor every delicate funcion connected with that mysterious compound agency of matter and mind, necessary to the re-production of human life. To persons of feeble muscular frame, or deficient in vital power, it is recommended as the only means of communicat-ing that energy which is necessary to the proper njoyment of all the natural appetites, as well as he higher mental attributes. Its beneficial effects are not confined to either sex or to any age. The eeble girl, the ailing wife, the listless, enervated youth, the over-worn man of business, the victim of nervous depression, the individual suffering from general debility, or from the weakness of a single organ, will all find immediate and perma-nent relief from the use of this incomparable reno-vator. To those who have a predisposition to vator. To those who have a predisposition to paralysis, it will prove a complete and unfailing safeguard against that terrible malady. There are many, perhaps, who have so trifled with their constitutions, that they think themselves beyond the reach of medicine. Let not even these despair. The Elixir deals with disease as it exists,

without reference to causes, and will not only rethe accommodation of the public, the undersigned has determined to run the steamer GEORGE PAGE as follows, viz.:

REBUILD THE BROKEN CONSTITUTION
The derangements of the system, leading to nervous diseases, and the forms of nervous disa celumn to enumerate the maladies for which this preparation is a specific. A few, however, may be enumerated, viz: neuralgia tic-doloureux, headache, incipient paralysis, hysteria, palpitation of the heart, spinal affections, muscular debility, tremors, flatulence, a pricking sensation in the flesh, numbness, torpidity of the liver, mental de-pression, weakness of the will, indisposition to ve, faintness after exercise, broken sleep, and terrifying dreams, inability to remain in one place or position, weaking of the procreative organs, sexual incompetency, melancholy, monomania, fluor albus, sinking at the stomach, female irregularities, a chronic tendency to miscarriage, emaciation, and all complaints growing out of a free indulgence of the passions, and all barrenness that does not proceed from organic causes beyond

Whenever the organs to be acted upon are free from malformation or strictural diseases, it is

MORSE'S INVIGORATING ELIXIR MORSE'S INVIGORATING ELIXIR
Will replace weakness with strength, incapacity
with efficiency, irregularity with uniform and natural activity, and this not only without hazard of
reaction, but with a happy effect on the general
organization. Bear in mind that all maladies,
wherever they begin, finish with the nervous system, and that the paralyzation of the nerves of motion and sensation is physical death. Bear in mind, also, that, for every kind of nervous disease the Elixir Cordial is the only reliable preparation

known. CURE OF NERVOUS DISEASES. No language can convey an adequate idea of the immediate and almost miraculous change which it occasions in the diseased, debilitated, and shattered nervous system, whether broken down by excess, weak by nature, or impaired by sickness, the unstrung and relaxed organization is at once braced, revivined, and built up. The mental and physical symptoms of nervous disease vanish together under its influence. Nor is the effect temporary; on the contrary, the relief is perma-nent, for the cordial properties of the medicine reach the constitution itself, and restore it to its normal condition. Well may the preparation be

ormal condition.

MEDICINAL WONDER

Of the niacteenth century. It is, as the first scientific man in the world would have admitted, that miracle of medicine heretofore supposed to have no existence.

have no existence.
A STIMULANT THAT ENTAILS NO RE ACTION. Its force is never expanded, as is the case with opium, alcoholic preparations, and all other excitants. The effect of these is brief, and it may well be said of him who takes them: "the last state of that man is worse than the first." But the Elixir is an exhilarant without a single drawback—safe in its operation, perpetual in its happy influence upon the nerves, the mind, and the entire organization; it will also remove depressions, excitement, a tendency to blush, sleeplessness, dislike of society, incapacity for study or business.

INVIGORATING CORDIAL.

DURELY Vegetable in its composition. This invaluable Cordial is extracted from Herbs and Roots, which have been found after years of experience, by the most skillful physicians, to be possessed of qualities the most beneficial in the diseases for which it is recommended; and hence, whilst it is presented to the public as an efficacious remedy, it is also known to be of that character on which reliance may be placed as to its safety. In cases of Impotency, Hæmorrhages, Disordered Sterility, Menstruation, or Suppression of the Menses, Fluor Albus or Whites, or for Debility arising from any cause, such as HENRYS
